✓ KEY DECISIONS	June 15, 2022 minutes approved. Any changes, please send to steve.grulke@midstatehealthnetwork.org
	• MDHHS communications? – Steve
	    a. Race data will be coming in 834 files starting Sept 2022
	    b. BH TEDS – FY23 file spec were updated and sent out to everyone.
	    c. A security agency sent out a news alert that ransomware attacks on health care companies is on the rise, so be extra aware.
	• HSAG PMV Review. This is Steve's first review as CIO. Seemed like it went pretty well. No major findings expected. Still waiting for written report.
	• BH TEDS and Encounter submission. No issues currently noted.

	• HSAG Compliance review coming up on July 22. Expecting issues related to Patient API and provider directory API.
	• 1915(i) SPA checkboxes in CMH EMR. Will need to get status regularly until all have implemented. Most are waiting for Clinical training to occur to start on this.
	• Critical Incidents process is being changed by MDHHS. Was an automated monthly process, now is heading toward a more real-time manual process in the CRM. Specs sent out by HMA directory to vendors rather than to CMH/PIHP. Everyone expressed that this was not a good thing.
	• SDoH questions. List of questions sent to assess where each CMH is at with respect to collecting, interpreting, coding and possibly sharing SDoH data.
	• Please refer to the CIO forum minutes for information from this group.
	• Other – Will be sending in our Performance improvement narrative for ADT submission status by July 31. All CMHs are sending currently and we expect 100% payments.
	CCBHC IT Subgroup
	• Mild/Moderate not defined by MDHHS with respect to ARPA funds and conflicting information in guidance provided. Discussion about assignment of Mild/Moderate with respect to level of care transitions. Upcoming reconciliation meeting on July 29. CCBHC Sliding fee scale uses 100% poverty while HMP and ATP use 133%, which means that some people with Medicaid could have a copay under CCBHC. Also what counts as income is different between the two methods of determination.
✓ **ACTION/INPUT REQUIRED**	• ITC members will work with their leadership and project managers to prepare their EMRs for collecting 1915(i) SPA eligibility data.
✓ **KEY DATA POINTS/DATES**	• Next ITC Meeting: August 17, 2022 Zoom only • CIO forum meeting: July 22, 2022 1 – 3 pm
